

"KRO-TANNAI" STANDARD TABLE FOR PSI DEGREES

INTRODUCTIVE NOTE

The Kro-Tannai Standard Table classifies all PSI Powers we previously discussed and they have been grouped in ten Degrees in growing order from the First, the faintest, to the Tenth, the most powerful

The Powers are followed by three

terms: "Spontaneous" which means that it is present but cannot be controlled voluntarily by the individual and which might not be possible to operate anytime and which may cause different effects from the ones desired. "Semi-Controlled" means that the Psya has some sort of control over the Power, whereas "Controlled" means that it can call this power

and finely tune the intensity and target and therefore the outcome can be predicted.

Any individual whose PSI powers gives feeble, scarce or occasional signs is simply indicated as Not Gradable, despite being considered Psya to all effects and therefore going to the Ordo schools when he is young.

MEDIUM - HIGH

- Controlled Teleempathy
- Controlled Reception and Transmission by Telepathy
- Semi-controlled Telekinesis
- Spontaneous Psyakinesis
- Possible first signs of Spontaneous Mindstalking on animal minds

- Controlled Teleempathy
- Controlled Reception and Transmission by Telepathy
- Controlled Telekinesis
- Semi-controlled Psyakinesis
- Spontaneous Mindstalking on animal minds
- Possible first signs of Spontaneous Foresight
- Spontaneous release of PSI Energy

- Controlled Teleempathy
- Controlled Multiple Reception and Transmission by Telepathy
- Controlled Telekinesis
- Controlled Psyakinesis
- Controlled Mindstalking on animal minds
- Controlled Mindstalking on Psyneq minds or on Psya minds lower than Fifth Degree
- Spontaneous Foresight
- Semi-Controlled release of PSI Energy
- Spontaneous Materialization and Dematerialization

HIGH

- Controlled Teleempathy
- Controlled Multiple Reception and Transmission by Telepathy
- Controlled Telekinesis
- Controlled Psyakinesis
- Controlled Mindstalking on animal minds
- Controlled Mindstalking on Psyneq minds or on Psya minds lower than Seventh Degree
- Spontaneous Foresight
- Controlled release of PSI Energy
- Semi-controlled Materialization and Dematerialization

- Controlled Teleempathy
- Controlled Multiple Reception and Transmission by Telepathy
- Controlled Telekinesis
- Controlled Psyakinesis
- Controlled Mindstalking on animal minds
- Controlled Mindstalking on Psyneq minds or on Psya minds lower than Eighth Degree
- Spontaneous Foresight
- Controlled release of PSI Energy
- Controlled Materialization and Dematerialization
- Controlled Time Mindstalking on animal and human Psyneq minds

OUTSTANDING

- Controlled Teleempathy
- Controlled Multiple Reception and Transmission by Telepathy
- Controlled Telekinesis
- Controlled Psyakinesis
- Controlled Mindstalking on animal minds
- Controlled Mindstalking on Psyneq minds or on Psya minds lower than Ninth Degree
- Semi-controlled Foresight
- Controlled release of PSI Energy
- Controlled Materialization and Dematerialization
- Controlled Time Mindstalking on animal and human Psyneq minds
- Controlled Permanent Mindstalking and Permanent Time Mindstalking

FINAL NOTE

If you look at the table it may seem as if there is no big difference between some levels. Bear in mind that the Power Intensity can vary enormously from one degree to the next.

For instance, although all the Psyas from the Fifth to the Tenth Degree are able to Receive and Transmit Telepathically in a Controlled way, the intensity that a Tenth Degree can apply is enormously greater than the one a Fifth Degree can

apply: the latter can actually reach by telepathy other individuals in approximately a one kilometer range, whereas the Tenth Degree Psya can reach others hundreds and maybe thousands of kilometers away.

Likewise, all Powers vary in intensity from Degree to degree.

It is therefore clear that there is a great difference between Psya Degrees and that Psyas from High

Degrees and Outstanding Degree have huge power.
